Dear Linda,

Thank you again for your assistance in planning such a wonderful event for our 2008 Investment Banking Summer Associate Class on July 10, 2008. Your professionalism, responsiveness, and flexibility throughout the planning process was much appreciated. In addition, your staff on the evening of the performance made our group feel extremely welcomed and allowed for seamless execution of the event.

We are constantly in search of innovative and exciting outlets for our intern classes to socialize throughout their summer experience. Your venue and performance provided just that, allowing a much needed and well-deserved escape from the long hours our Summer Associates spend in the office. The creativity and comedic brilliance of your performers kept our group laughing all evening. The subtle inclusion of references to Credit Suisse throughout the show was fantastic and provided a relevance and customization that is rarely found at other events of this type.

Once again, I want to thank you for your hospitality. We look forward to the possibility of working with you and the rest of the Chicago City Limits family in the future.

Kind Regards,

Matthew Bliss
